EDUCATION

University of Texas at San Antonio, San Antonio, USA

September 2019 – Present

Ph.D., Electrical and Computer Engineering

Anticipated date of graduation

August 2025

University of Texas at Dallas, Dallas, USA

September 2016 - December 2017

M.S., Information Technology and Management

Wuhan University of Technology, Wuhan, China

September 2009 – June 2013

B.S., Major in Navigation Technology, Minor in Logistics Management

RESEARCH INTERESTS

Internet of Things, Edge-Cloud Computing, Wireless Networking

Quantum Computing and Communication, Artificial Intelligence, Machine Learning

WORK EXPERIENCE

University of Texas at San Antonio, San Antonio, USA

September 2020 – June 2024

Teaching Assistant

- IS 3303 Operating System Security: Covered core OS concepts and led labs on securing Unix-like and Windows systems through configuration, firewalls, kernel modules, and malware defenses.
- IS 4483 Digital Forensic Analysis I: Examined data structures, tools, and techniques for recovering digital evidence, with emphasis on file system forensics of computer hosts and storage media.
- IS 4523 Digital Forensic Analysis II: Addressed advanced forensic topics, including OS artifacts, non-standard file systems, mobile devices, malware analysis, and volatile memory acquisition.

University of Texas at San Antonio, San Antonio, USA

September 2019 – Present

Research Assistant

- Investigated optimal client scheduling and resource allocation for federated fine-tuning of large language models in dynamic, resource-constrained mobile networks, addressing challenges of limited model access and high computational, communication, and memory overhead.
- Developed a semi-supervised federated learning framework that leverages a limited set of labeled data on the ground server and a substantial volume of unlabeled data from satellites, enabling efficient training of a building assessment model without the necessity for manual labeling.
- Designed a hybrid quantum-classical generalized Benders' decomposition algorithm to maximize network throughput in integrated satellite-aerial-terrestrial networks by jointly optimizing resource allocation while ensuring compliance with energy constraints.
- Employed successive convex approximation to minimize energy consumption across multiple UAVs by jointly optimizing task offloading, task splitting, communication and computing resource allocation, and UAV deployment strategies.

MLSDDealFinder, Dallas, USA

August 2017 – June 2019

Business Analyst

- Utilized Spark for string manipulation and large dataset aggregation, facilitating data visualization in Tableau.
- Analyzed and forecasted next year's market trends by developing a time-series model in Python.
- Monitored and analyzed website performance using Google Analytics, implementing optimizations through the design and execution of A/B tests.

SKILLS

Programming Language:	Python, JAVA, R, SQL
Tools:	SAS, Tableau, Pytorch, Matlab, ERwin, Tensorflow, Keras
Database:	Microsoft SQL Server, MongoDB, Hive
Machine Learning:	Federated Learning, Reinforcement Learning, Natural Language Processing

HONORS & AWARDS

Graduate School Professional Development Award, UTSA, USA	July 2024
COVID-19 Transdisciplinary Team Grand Challenge Participation Award, UTSA, USA	September 2020
IEEE S&P Student Registration Award, UTSA, USA	May 2020
MIS Data Visualization Competition Finalist, UT Dallas, USA	November 2017
INFORMS Data Analytics Competition Finalist, UT Dallas, USA	April 2017

SERVICES

Technical Program Committee Member:

- Workshop on Generative AI for Smart and Connected Health: Innovations, Challenges, and Applications (GenAI4SCH), IEEE/ACM Conference on Connected Health: Applications, Systems and Engineering Technologies (CHASE), 2025

Journal Reviewer

- IEEE Internet of Things Journal (IoTJ)
- IEEE Wireless Communications Magazine
- IEEE/ACM Transactions on Networking (TON)
- IEEE Transactions on Communications (TCOM)
- IEEE Transactions on Mobile Computing (TMC)
- IEEE Transactions on Vehicular Technology (TVT)
- IEEE Transactions on Emerging Topics in Computing (TETC)
- IEEE Transactions on Dependable and Secure Computing (TDSC)
- IEEE Transactions on Green Communications and Networking (TGCN)
- IEEE Transactions on Cognitive Communications and Networking (TCCN)
- Energy Systems
- Cluster Computing
- ACM Computing Surveys
- Journal of Supercomputing
- Journal of Grid Computing
- Mobile Networks and Applications

Conference Reviewer

- IEEE Global Communications Conference (Globecom)
- IEEE Conference on Communications and Network Security (CNS)
- IEEE Wireless Communications and Networking Conference (WCNC)
- IEEE International Conference on Distributed Computing Systems (ICDCS)
- IEEE International Conference on Pervasive Computing and Communications (PerCom)

Outreach

- Poster presentation at IEEE International Conference on Communications (ICC), Denver, USA, 2024
- Poster presentation at Conference on Neural Information Processing Systems (NeurIPS) in New In ML workshop, New Orleans, USA, 2023
- Volunteer at MATRIX AI Seminar, San Antonio, USA, 2021
- Volunteer at Big Idea Competition, Dallas, USA, 2017
- MIS Data Visualization Competition Finalist, Dallas, USA, 2017
- INFORMS Data Analytics Competition Finalist, Dallas, USA, 2017
- Volunteer at National Navigation Summer Camp, Wuhan, China, 2012

PROFESSIONAL AFFILIATION

IEEE Student Member	2019 - present
IEEE Communications Society Member	2019 - present
