EDUCATION

University of Texas at San Antonio, San Antonio, USA

Ph.D., Computer Engineering

Anticipated date of graduation

University of Texas at Dallas, Dallas, USA

M.S., Information Technology and Management

Wuhan University of Technology, Wuhan, China

B.S., Major in Navigation Technology

B.S., Minor in Logistics Management

September 2019 – Present

May 2025

September 2016 - December 2017

September 2009 – June 2013

RESEARCH INTERESTS

Internet of Things, Edge-Cloud Computing,

Wireless Networking, Quantum Computing and Communication, Artificial Intelligence

WORKING EXPERIENCE

University of Texas at San Antonio, San Antonio, USA

Teaching Assistant

• IS 3303 Operating System Security

- IS 4483 Digital Forensic Analysis I
- IS 4523 Digital Forensic Analysis II

University of Texas at San Antonio, San Antonio, USA

Research Assistant

September 2019 – Present

September 2020 – June 2024

- Developed a semi-supervised federated learning framework that leverages a limited set of labeled data on the ground server and a substantial volume of unlabeled data from satellites, enabling efficient training of a building assessment model without the necessity for manual labeling.
- Developed a hybrid quantum-classical generalized Benders' decomposition algorithm to maximize network throughput by simultaneously optimizing content delivery policies, cache placement, and transmission power allocation within integrated satellite-terrestrial networks.
- Utilized successive convex approximation to optimize energy consumption across multiple UAVs by simultaneously optimizing task offloading and splitting decisions, as well as communication and computing resource allocation and UAV deployment.

MLSDealFinder, Dallas, USA

August 2017 - June 2019

Business Analyst Internship

- Executed string manipulation, then aggregated large dataset for data visualization by using Spark.
- Analyzed and predicted the next year's market trend by building a time-series mode using python and R.
- Monitored company's website performance using Google Analytics, and optimized by designing A/B tests.

SKILLS

Programming Language: R, SQL, Python, Scala

Tools: SAS, Tableau, Pytorch, Matlab, Google Analytics, Dwave Quantum Solver

Database: Microsoft SQL Server, MongoDB, Hive

Machine Learning: Federated Learning, Reinforcement Learning, Large Language Model, Diffusion Model

HONORS & AWARDS

Graduate School Professional Development Award, UTSA, USA

COVID-19 Transdisciplinary Team Grand Challenge Participation Award, UTSA, USA

IEEE S&P Student Registration Award, UTSA, USA

MIS Data Visualization Competition Finalist, UT Dallas, USA

INFORMS Data Analytics Competition Finalist, UT Dallas, USA

April 2017
